

For Immediate Release

Chesterfield, MO, March 21, 2010 – **CMS Communications, Inc.** is a leading provider of Voice over IP (VoIP) telephony solutions, data networking infrastructure hardware and enterprise class High Definition Video and Audio conferencing.

As CMS celebrates its 25th anniversary we are pleased to announce the re-branding of our Interconnect Division as **CMS Solutions**. Glenn Cosman, principal added “Since inception CMS has been comprised of two Divisions. The Equipment Division which provides new and refurbished telephony and data equipment nationwide and the Interconnect Division which provides turnkey IP Telephony and HD Video systems in 12 major markets throughout the U.S. The re-branding of our Interconnect Division allows us to develop marketing initiatives that are focused on enterprises seeking complete Voice, Video and Data solutions”.
