CMS Communications, Inc. Achieves Phybridge Certification Designation, Qualifies to Offer Industry-Leading Quality of Service Guarantee

FOR IMMEDIATE RELEASE: February 28, 2011

Chesterfield, MO — CMS Communications, Inc. has announced it has attained their Certified Partner status with Phybridge Inc, a leading networking company focused on optimizing local area networks for voice and data convergence. “We are excited about our partnership with Phybridge and the ability to offer the industry-leading quality of service guaranties,” says Glenn Cosman, Owner of CMS. “Phybridge is a networking game changer. It allows users to break through the industry paradigm that Voice must be converged on their data network.”

The Phybridge UniPhyer is the only network switch that allows customers to use their existing voice infrastructure to successfully deploy their IP telephony solution with no business or network disruption, optimizing their Local Area Network (LAN) for convergence. “CMS is committed to bringing value to their customers. It was evident in their commitment to make the investments required to bring to customers innovations that allow them to reduce their total cost of ownership while maximizing their return on investment,” says John Croce, CEO of Phybridge.

“Many of our customers want to receive tremendous value of IP Telephony and Unified Communications solutions; however the complexities of layering voice on the data network create concerns and barriers to adoption. The UniPhyer introduces a more customer-centric and better way to optimize the LAN for convergence today, while minimizing management and financial requirements after deployment.”

“We are excited to take our customers and any business to the future of communications allowing them to save money, and improve productivity and customer satisfaction levels with minimum risk,” says Glenn Cosman, Owner of CMS. “The strategic addition of the UniPhyer will allow us to offer customers many benefits with minimum risk at a much lower cost.”

ABOUT CMS Communications, Inc.

Founded in 1985 CMS provides, designs, installs and maintains Unified Communications systems in 12 major markets throughout the U.S. CMS is a Gold Certified ShoreTel partner and Double Diamond NEC distributor. For more information please visit our website at www.cmcsolutions.com.

ABOUT PHYBRIDGE

Phybridge mission is to bring to market “practical innovations”. Technologies that allow customer to maximize their return on investment while minimizing the total cost of ownership. To achieve this, our technology needs to solve complex problems in a simple manner, be robust and reliable and easy to install and manage. The award winning Phybridge UniPhyer exemplifies our mission in action.

The UniPhyer is the only local area network switch in the world to deliver Ethernet and Power over Ethernet (PoE) over a single pair with reach of 1,200 ft. Customers can leverage their proven reliable voice infrastructure to create a physical separate voice path complimenting and extending the existing data network, while optimizing the LAN for convergence. One network, two paths, no compromise. For more information, please visit www.phybridge.com.
